PROFESSIONAL SUMMARY

AI Automation & Full-Stack Developer building React and Next.js applications, Supabase-backed dashboards, and n8n automation systems. Works full-time at Grivaa Capital, shipping the firm’s web properties and internal products, including a Next.js and Supabase social-media command center and a team-productivity system. Independently designed and deployed production apps such as StockAnalytix, an AI stock-research terminal, and Vedic Astra, an AI-assisted astrology platform, with several tools live and in daily use. Owns delivery end to end across automation design, API integration, and deployment.

HIGHLIGHTS

- Shipped 10+ live web applications and put 2 AI systems into production, all deployed and publicly accessible.
- Built StockAnalytix, an AI stock-research terminal spanning US, NSE, and BSE markets with screening, alerts, and AI research chat.
- Ship and maintain multiple company web properties at Grivaa Capital, including full technical SEO and internal tooling.
- Design n8n and Zapier automations that remove roughly 8–10 hours of manual work each week.

TECHNICAL SKILLS

AI & Automation n8n, Zapier, Make, Workflow Automation, API Integration, AI Agents

Frontend & Mobile React, Next.js, JavaScript, TypeScript, Tailwind CSS, React Native / Capacitor, Responsive Design

Backend & Data Supabase, Firebase, REST APIs

AI & Dev Tools VS Code, Google AI Studio, Google Antigravity, ChatGPT, Claude Code, Codex, Gemini, GPT-4o

Deployment & Workflow Git, Vercel, Technical SEO, Google Sheets, Notion, Figma

EXPERIENCE

Web Developer & AI Automation Specialist — Grivaa Capital 2026 – Present

- Ship and maintain the firm’s live web properties (Grivaa Capital, RealtyResolve, and the founder’s site) with React, Next.js, and Tailwind CSS, including technical SEO: sitemaps, schema, metadata, and Search Console indexing.
- Design and run n8n and Zapier automation systems for lead enrichment, content-to-article generation, and scheduling, reducing recurring manual work by roughly 8–10 hours per week.
- Built internal products now in production: the Grivaa Command Center (Next.js and Supabase) for social-media content, scheduling, and analytics, and Studio OS, a team task-management and productivity system.
- Deployed Creator Tracker, an AI research dashboard, on the company subdomain to generate data-backed content ideas.

Independent Developer & Product Builder — Tech By Vansh (Self-Employed) 2024 – 2025

- Designed, built, and deployed production web apps end to end with React, Next.js, Firebase, and Vercel, from concept and UI through live deployment.
- Built AI-powered products including StockAnalytix (AI stock-research terminal) and Vedic Astra (AI-assisted astrology insights), plus creator utilities used in real workflows.
- Produced technical content under the Tech By Vansh brand, reaching 300K+ views.

Additional Experience — Allied Engineering Works · Elios Management Consulting 2024 – 2025

- Hardware Assembly Intern and Electronic System Design Intern — hands-on hardware assembly, testing, and electronic system design.

FEATURED PROJECTS

- StockAnalytix** Next.js · AI · REST APIs [stockanalytix.vercel.app](#)
AI-powered stock-research terminal covering US, NSE, and BSE markets: stock analysis, screener, watchlists, portfolio tracking, price alerts, AI-sorted bullish and risky picks, and an AI research chat.
- Grivaa Command Center** Next.js · Supabase · AI [grivaa-command-center.vercel.app](#)
Internal command-center dashboard that centralizes social-media content, scheduling, and analytics for the Grivaa Capital team.
- Studio OS (EMS)** PHP · JavaScript · REST [ems.grivaacapital.com](#)
Employee-management and team-productivity system: task assignment, drag-and-drop Kanban with live time tracking, AI voice task entry, per-person and per-platform analytics, notifications, and Excel / Google Drive export.
- Vedic Astra** React · AI [vedicastro.vercel.app](#)
Vedic astrology web app that calculates detailed birth charts and converts complex outputs into readable, AI-assisted insights.

ADDITIONAL PROJECTS

- Creator Tracker** React · YouTube API · AI — AI dashboard that monitors YouTube creators and generates data-backed content ideas. [tracker.grivaacapital.com](#)
- StreamGarden** Android · REST APIs · Media — Android app that downloads video, audio, or thumbnails from platforms like YouTube and Instagram from a single link.
- B2B Leads Enrichment** n8n · Apollo · AI · Google Sheets — Automation that sources leads, verifies emails, adds AI summaries, and writes an outreach-ready dataset.
- YouTube-to-SEO Article** n8n · GPT-4o — Turns a YouTube video into a formatted, SEO-structured article with a generated cover image.
- VanshLink** React · Firebase — Responsive real-time messaging app with Firebase authentication. [vanshlink.vercel.app](#)
- Aura Player** React — Unified browser media player for local audio, video, and online playback. [aura-player-nine.vercel.app](#)
- Aura Shakti** React — Interactive, motion-led personality quiz with shareable results. [aurashakti.vercel.app](#)
- vThumb** React — Creator utility for downloading YouTube thumbnails in all available resolutions. [vthumb.vercel.app](#)
- Kairo** React — Gamified self-development app that turns confidence-building into daily missions. [kairo-black.vercel.app](#)

EDUCATION

Bachelor of Commerce (Honours) — Delhi University (School of Open Learning) (pursing)	2026 – Present
Diploma, Computer Hardware & Networking (CHNM) — Government ITI, Mangolpuri (NCVT)	2025 · 85%
Advanced coursework in PC assembly, computer networking, operating-system installation, and hardware troubleshooting.	
Senior Secondary (Class XII), CBSE	2024 · 72.8%
Secondary (Class X), CBSE	2022 · 73.8%

CERTIFICATIONS

- Microsoft AI Fundamentals — Skill Saksham Program (Microsoft · Edunet Foundation, 2025).
- Industrial Training in Computer Hardware — Allied Engineering Works Pvt Ltd.
- Electronic System Design — Elios Management Consulting.
- Tally with GST, and Basic Computer Course — STP Computer Education.
